

MONTHLY SEMINAR SERIES

OFFICE 365 MEANS BUSINESS – BIG BOLD BUSINESS TRANSFORMATION

Reduce Capital and Travel Expenses, Gain Greater Collaboration and Productivity, Improve Employee Engagement and Provide a Differentiated Customer Experience.

SEMINAR OVERVIEW

Communicating is the one thing we do more than anything else. We speak with each other either in person or via some mediated technology like telephone, voice, IM, text and video chat. We create and send emails. We produce presentations that we deliver via networked conferencing systems. More than ever our people are away from the office working from home, hotels, customer sites, soccer fields, and the beach and everywhere in between. The technologies that enable all of this communication must reach farther, be more readily available, and also must be more secure than ever before.

- Lunch and Raffle included

REGISTER TODAY

CONTROL COSTS. DRIVE RESULTS. GET CONNECTED. FOCUS ON YOUR BUSINESS.

- Dramatically reduce communications costs (Audio / Video / Web Conferencing / Phone System)
- Transform how your teams communicate and collaborate internally as well as with customers and partners
- Use familiar tools like Microsoft® Office to do more and make it easier for team members to reach out to each other and get the answers they need to move the business forward.
- Reduce spend on IT infrastructure and support by consolidating communications systems and leveraging the cloud
- Get even more value out of the Microsoft® Cloud Platform – Office 365
- Extend the value of your existing Microsoft software investments
- On-board and retain valued employees by providing the tools they "expect" to use in today's work environment
- Benefit from added security, reliability, compliance and compatibility
